Preface

This project report has been prepared in partial fulfilment of B.com 6th semester examination on the topic "A Study on impact of GST on retail traders of Nalbari town" for the award in Bachelor Degree in Commerce.

The introduction of Goods and Service Tax (GST) marks a watershed in the history of indirect tax reforms in India. GST has been implemented with a desire to have an efficient and harmonised consumption tax system in the country.

GST implementation will lead to a dynamic common market, reduction in tax evasion, improved collection efficiency. Through this project, we attempt to present an overview of GST regime implemented in India.

My involvement in this project has been very challenging and has provided me a platform to leverage my potential in the most constructive way.
