Introduction:- A Three wheeler is a vehicle with three wheels, either "human or people powered vehicles" (HPV or PPV or auto mobiles) or motorized vehicle in the form of motorcycle all-terrain vehicle (ATV) or automobile others name for three-wheelers includes trikes Tracers and cydecars Electric rickshaw.

The toom tricycle id used somewhat inter changeable, but the term three-wheeler is more often applied to motor vehicles. They can be legally classed as either automobiles or motorcycles. Many three wheelers which exit in the from of motorcycle based machines are often called trikes and often have the front single wheel and machines similar to that of a motorcycle and near axle similar to that of a car often such vehicle are owner contacted vsing a portion of a near engine near drive drive volks wagon. Beetle in combination with a motorcycle front and other trikes in clued ATV,s that are specially constructed for off road use. Three-wheelers automobiles can have either one wheel at the book and two at the front (for example-Morgan motor company) or one wheel at the front and two at the back (Such as the Reliant Robin).

Due to its superior safety when on in caressingly popular from is the front steering "Todpole" or resave trike sometimes with front drive but usually with near drive. A variant on the one at the front layout was the scott sociable. Which reasonable a four wheeler with a front what missing not itlustrated in the near- steered delta from side nay, British Columbia.

Three-wheeler cars visually micro cars are often built for economic reason. As a resolve of their light censes and potential letter streamlining three-wheeler cars are usually very economical torn.

Three-wheeler transport vehicles known as auto Rickshaws are common mean of public transportation in many countries in the world.

Auto Rickshaws and electric-rickshaws are very essential from a urban transport in many developing countries such as India and a from of novelty transport in many Eastern countries.
